

Master of Environmental Design Information Session

The Master of Environmental Design (MEDes) is a post-professional degree intended for those wishing to expand their current design-related backgrounds with advanced, interdisciplinary, practice-based research. Join us to hear more about the program, including admissions information and potential areas of research related to architecture, landscape architecture, planning, ecology and other forms of design exploration.

Master of Environmental Design Information Session

Friday, December 11 12—1pm, PF 2160

Please RSVP to jtaillef@ucalgary.ca

More info can be found at evds.ucalgary.ca/events

Instructions

Changing Background Image:

1. Right click on the background image and click on “Change picture”.
2. Browse and select the image the you would like to use.
3. Resize the image if necessary to fill the background space – making sure that it does not go on top of the red Title bar.

Poster Text

1. Keep the font-size of the Poster title between 25 pt and 40 pt.
2. Do not change the font type or colors.
3. For this template event description should be less than or equal to 60 words
4. Please do not change the font size for any of the other elements other than the title.

Important

1. Do not remove the red bar with the Title.
 2. Do not paste anything on top of the University Logo.
 3. If you need assistance or have any questions please email Rahil Tarique at srtariqu@ucalgary.ca
